# THE GLAD PATCH

SPRING 1939

Normal, Ill.

We thank you for a share of your patronage and assure you we will send you only high quality stock at moderate prices in spite of our very modest price list.

We have omitted a good many varieties from this list because we deem some of them unworthy while our stock of others is low. We may be able to supply a few of these but can't guarantee it.

We feel that you are so well acquainted with most of these varieties that no description is necessary but if you ask for it we will send our last catalog with descriptions.

We feel that a few of the newer ones should claim your attention. Creve Couer, a burnt orange with orange red blotch makes a good spike and opens up to eight four inch florets. Mary Ansteen, a begonia rose with throat markings, is about the prettiest pink glad we have seen. The spikes are not tall but make strong, sturdy growth and are extra fine. New Era is attracting a lot of attention with its large number of pink blooms open. We have not bloomed it, so cannot tell just what it will do in this locality. Prairie Gold,

the deepest of yellow\$, has growing habits almost ideal and is worthy a trial. Recovery is one you must have, if you like medium red. A tall, strong grower with up to eleven florets open. Smiling Maestro, a deep salmon rose, is highly recommended by most growers. We have not bloomed it from large bulbs.

Our prices are low and we do our utmost to keep our quality high. We give very liberal count and extras in proportion to the order. We like satisfied customers and do our best to please you in every particular. If the stock we send you is not satisfactory in every particular, we will count it a favor if you will return it to us and receive your money back, or ask for a correction if a mistake has been made.

List No. 1 is priced per 10 bulbs PREPAID to you. 5 bulbs at 10 rate. 25 bulbs at two times 10 price. Large bulbs are 1¼ inches in diameter and over. Medium ¾ to 1¼. 10 large 40c, medium 25c.
